After loging in you right click the mouse again to bring up the sub-menu as shown below. Select the "Main Menu" option in the sub menu.

From the main menu select the "Play Back" button.

After selecting the playback button you will see the menu displayed below. From top to bottom you will go through and adjust the search parameters to the time and date of the video you are looking to view. You will want to change the play type to Page 3/6

Below you can see a completed search result. From here simply click on the desired file and hit play. Alternatively you may double click the file to play it as well. Please keep in mind your DVR may have hundreds of video files depending upon your search and the settings in the DVR and you may need to scroll through multiple pages using the blue arrows around the page numbers "<< 001/006 >>" as shown
