DVR Systems

How to Convert Video Files from H.264 to .AVI for the ZMD-DT-SFN6

To convert individual video files to .AVI format, you will need to download the program called NetDVR.

NetDVR can be downloaded from the site below;

https://dl.dropbox.com/u/72446397/NetDvr.msi

You will need to run NetDvr and click Offline

To view your files using a standard media player, you will need to convert the file from the .264 format to .avi format.

1. Click on the H.264 to AVI button

2. Browse to your source file in the SrcFile field.
3. Select you Destination file path in the DestFile field.
4. Click the h264toavi button to convert the selected video file to .AVI format.
