Record Over Internet Explorer With ZMD-ISV-BFS23NM, ZH-IXA15-WC, ZH-IXB15-WC, ZH-IXC15-WC, ZH-IXD15-WC

How to Record Over Internet Explorer With ZMD-ISV-BFS23NM

1. Log into the IP address of the camera with Internet Explorer. Make sure to open Internet Explorer by Right-Clicking on the Internet Explorer logo and choosing "Run As Administrator".

2. Access the settings menu on the camera.

ZMD-ISV-BFS23NM

3. Change the file path of the recording directory. Recommended to use C:\Users\USER\Videos

ZMD-ISV-BFS23NM

The screenshot shows a window titled "Device Parameters" with a close button (X) in the top right corner. The window is divided into two main sections: "Local Configuration" on the left and "Local Video Store Settings" on the right. The "Local Configuration" section has a blue background and contains a camera icon and the text "Video Capture". The "Local Video Store Settings" section is a white box containing two settings: "Video files packaged time" set to "30" with a dropdown arrow and "mins" unit, and "Storage directory" set to "F:\\" with a text box and a button with three dots "...". A yellow arrow points to the "... button. At the bottom of the "Local Configuration" section is a button labeled "Submit".

The screenshot shows a window titled "Device Parameters" with a close button (X) in the top right corner. On the left is a blue sidebar with two tabs: "Local Configuration" (selected) and "Remote Configuration". Under "Local Configuration" is a camera icon and the text "Video Capture". The main area of the window is titled "Local Video Store Settings" and contains two settings: "Video files packaged time" set to "30" with a dropdown arrow and "mins" unit, and "Storage directory" set to "C:\Users\██████\Videos\NVR1\" with a browse button "...". A "Submit" button is centered at the bottom of the main area.

4. After selecting the fold your want to save to, please hit the "Submit" button to save the settings. You will see a message pop up saying "Operation Succeeded!"

ZMD-ISV-BFS23NM

5. Exit out of the settings menu and then double click on the name of the camera on the far left. It is labeled as CH01 by default. The video should load up on your screen.

ZMD-ISV-BFS23NM

6. After you have the video on your screen, RIGHT-CLICK on the any part of the playing video and Select "Record" from the window that pops up.

ZMD-ISV-BFS23NM

7. If everything has been done correctly, you should see a little red dot on the bottom left of your screen. This shows you that it is recording to the folder we just set.

ZMD-ISV-BFS23NM

Your camera is now recording whenever you see that red dot in Internet Explorer. If you close Internet Explorer, it will stop recording and you will need to follow steps 5-7 to make it start recording again.
