

## Adding your device to the Internet Explorer Compatibility View list

**\*\*[Internet Explorer 11 Keeps Crashing When I Login](#) \*\***

With the release of Windows 8.1, Internet Explorer was upgraded to version 11. This new version has caused some compatibility issues with some Zmodo Add-ons.

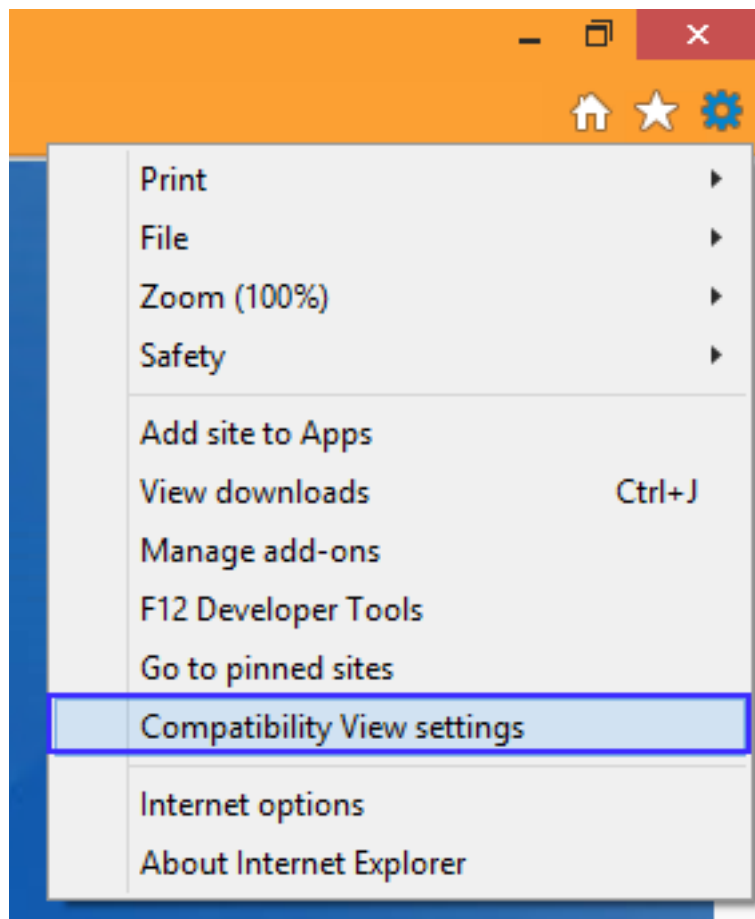

Many of our will require using "Compatibility View" to work. Use the following instructions to enable compatibility view.

1. Click the icon that looks like a cog or gear in the top right.

2. Click "Compatibility View Settings"

# ZMD-DR-SFN6

3. Type in the IP of your DVR and click "Add"

Compatibility View Settings

Change Compatibility View Settings

Add this website:

192.168.1.210

Add

Websites you've added to Compatibility View:

Remove

☒ Display intranet sites in Compatibility View

☒ Use Microsoft compatibility lists

Learn more by reading the [Internet Explorer privacy statement](#)

Close

4. Click "Close" and then navigate to the IP of the DVR. You should have no more problems.
