DVR-H9124V

Windows has found a problem with this file (8100 series-SFN series)

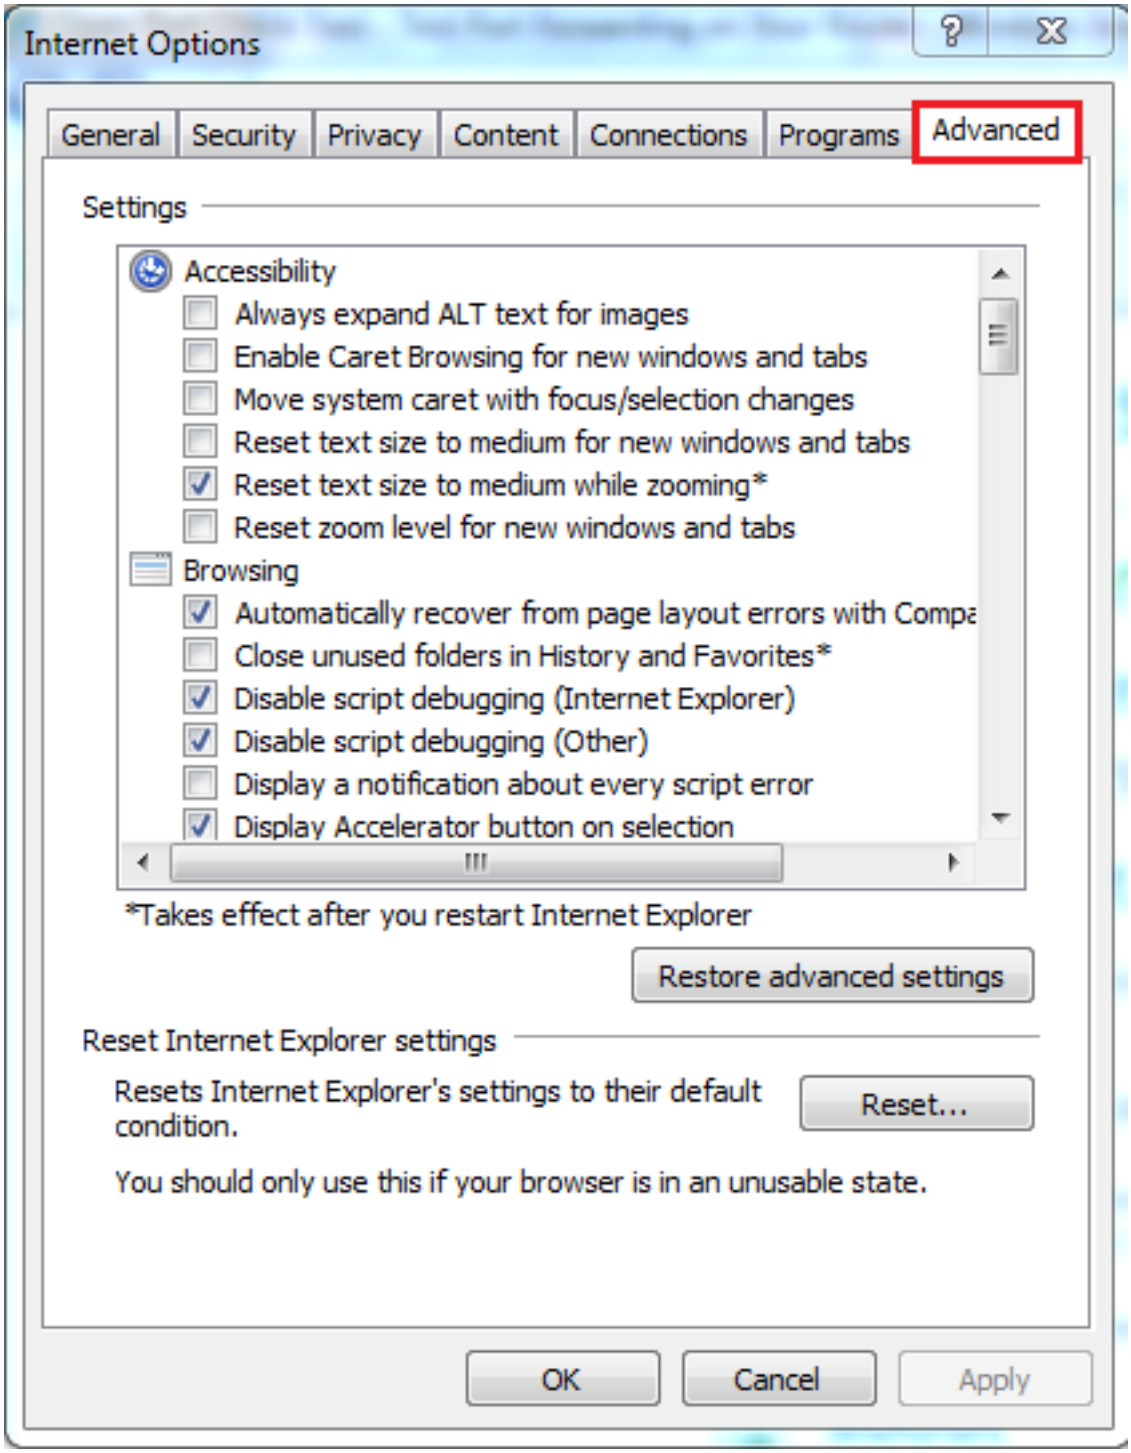

If you have configured all ActiveX Settings properly in your Internet Explorer according to the following article: http://kb.zmodo.com/article.php?id=96 and are still unable to view your cameras online due to a message stating "Windows has found a problem with this file", please follow these steps:

1. Go to the tools menu in your Internet Explorer

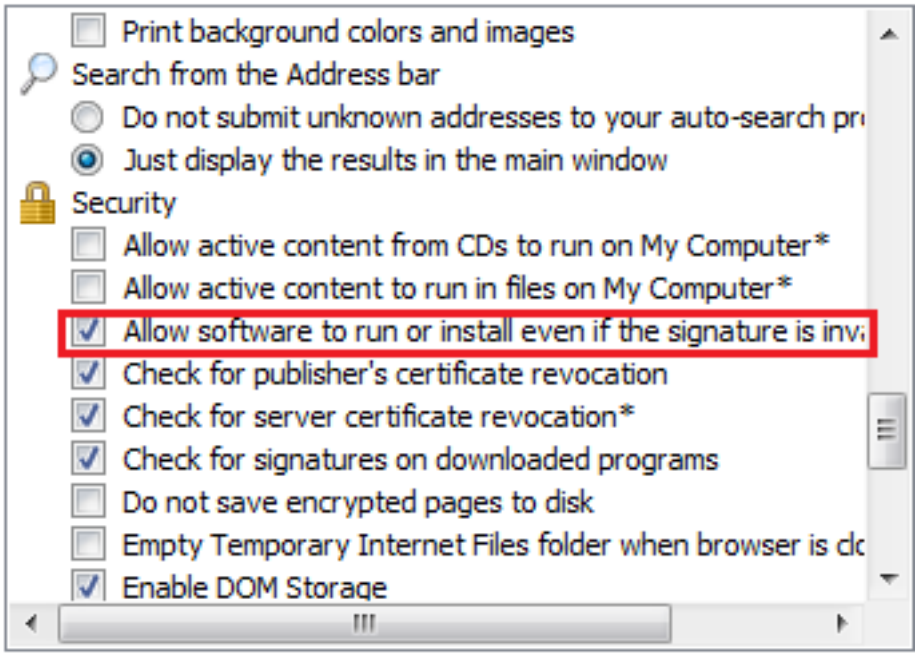

2. Click on the "Advanced" tab
