ZMD-DX-SBL8

Lower Resolution for ZMD-DX-SAN8, ZMD-DX-SIN8, and DS-H81A (Firmware V70.1.2.3)

First, if the DVR was working at the default resolution (1280x720) and it was manually set too high, hold the reset button on the back of the DVR for 30 seconds to bring it back to default resolution (1280x720).

WARNING: This will reset all the other settings back to default as well.

Walkthrough to Lower Resolution for ZMD-DX-SAN8, ZMD-DX-SIN8, and DS-H81A (Firmware V70.1.2.3)

Power off DVR, wait 5 seconds

Power DVR back on

Wait until loading screen goes away

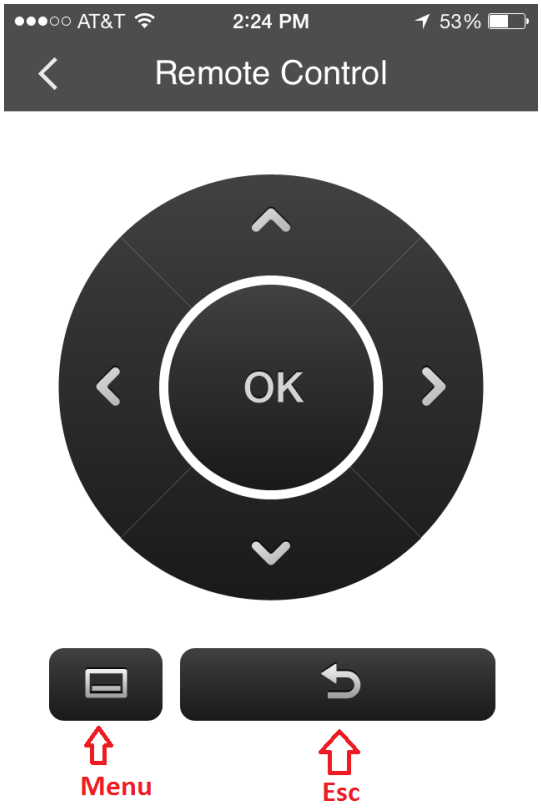

Wait another 5 seconds for it to finish loading.

For the **ZMD-DX-SAN8 or DS-H81A**, you will use Zsight app remote control option.
