P2P Systems - Notification Icon Explained

The new simplified P2P system has a notification icon in the menu bar when motion is detected. The notification icon looks like this:

Clicking on the notification icon will take you to the video playback page and start playing the latest video recorded that includes movement.

The screenshot displays a video playback interface. The main video window shows a hallway with a red brick wall and a white door. The timestamp in the top right corner of the video is 17-02-2014 15:23:12. Below the video is a playback control bar with buttons for play, pause, stop, and full screen. To the right of the video is a sidebar with a calendar for February 2014, showing the 17th as the selected date. Below the calendar is a search bar with 'Event ALL' and 'Time 00:00-06:00'. At the bottom of the interface is a channel selection bar with 'CH 01' selected and a legend for record types: All Records (blue), Schedule (green), Alarm (red), Motion (orange), and Manual (cyan). A 'Backup' button is located in the bottom right corner.
