ZMD-ISV-BFS23NM

The screenshot shows a web-based configuration window titled "Device Parameters". On the left, there is a vertical sidebar with two tabs: "Local Configuration" (selected) and "Remote Configuration". Under "Local Configuration", there is a camera icon and the text "Video Capture". The main area of the window is titled "Local Video Store Settings" and contains two configuration fields:

- "Video files packaged time" is a dropdown menu set to "30" with the unit "mins".
- "Storage directory" is a text input field containing "C:\Users\██████\Videos\NVR1\" and a browse button "...".

At the bottom center of the main area is a "Submit" button.

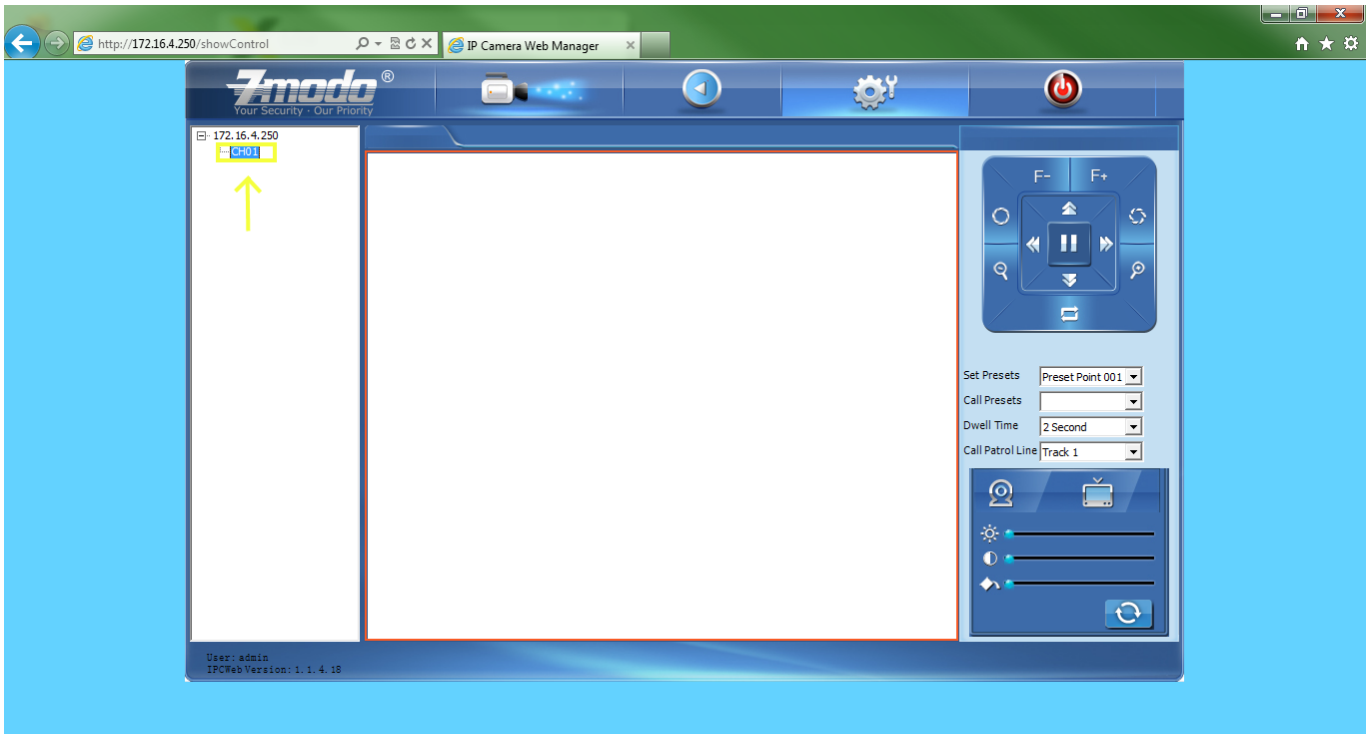

4. After selecting the folder you want to save to, please hit the "Submit" button to save the settings. You will see a message pop up saying "Operation Succeeded!"

ZMD-ISV-BFS23NM

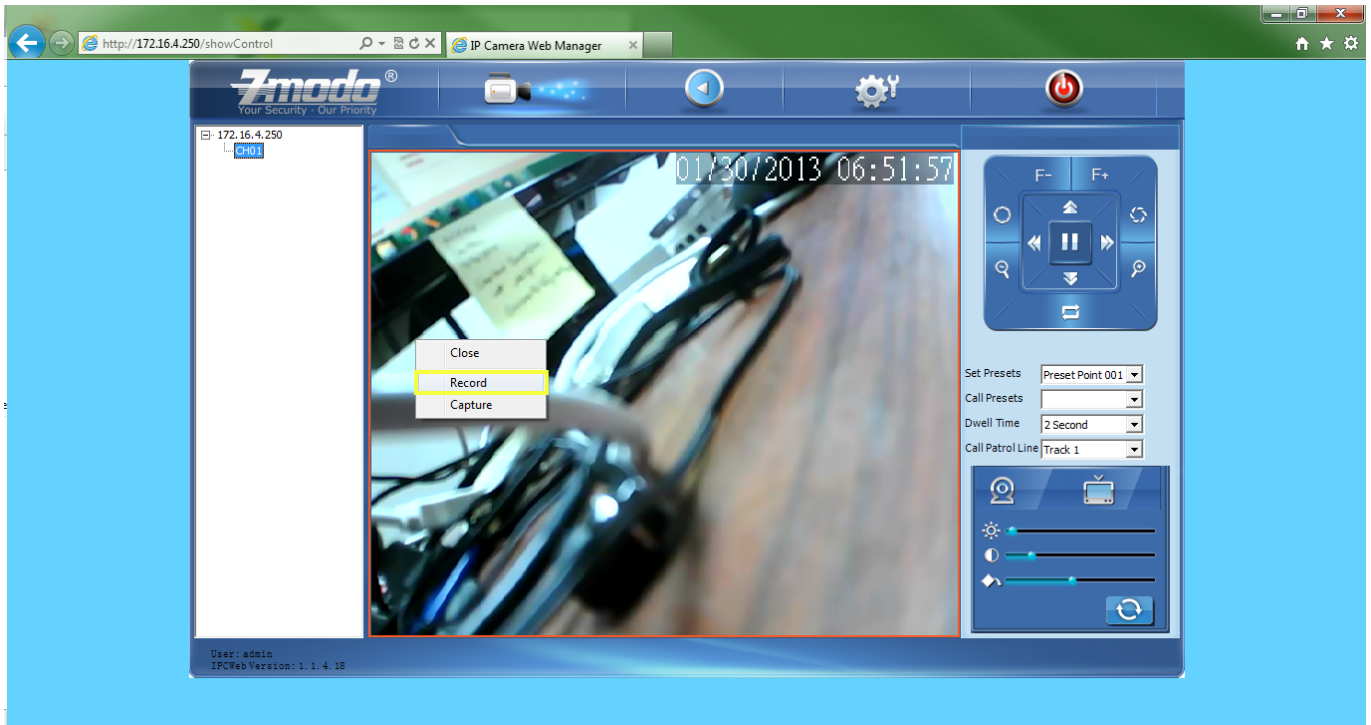

5. Exit out of the settings menu and then double click on the name of the camera on the far left. It is labeled as CH01 by default. The video should load up on your screen.

ZMD-ISV-BFS23NM

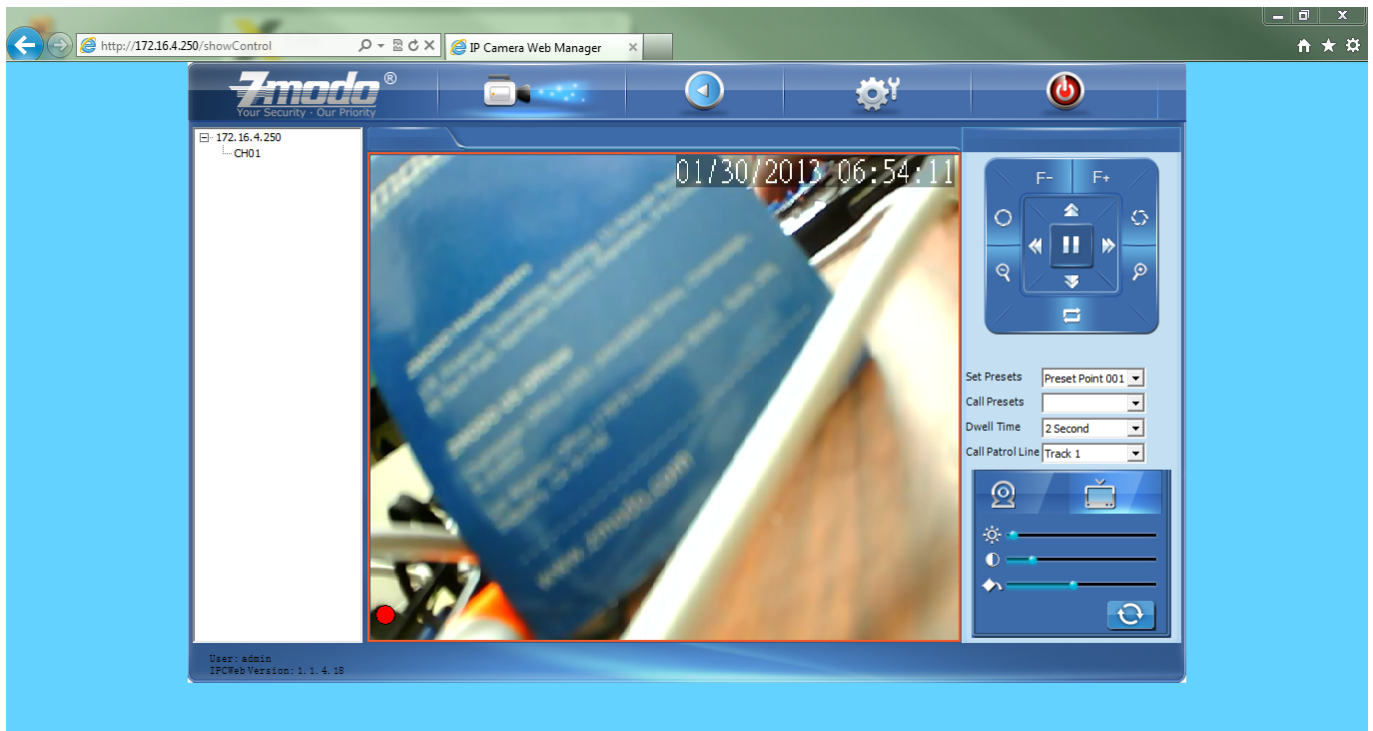

6. After you have the video on your screen, RIGHT-CLICK on the any part of the playing video and Select "Record" from the window that pops up.

ZMD-ISV-BFS23NM

7. If everything has been done correctly, you should see a little red dot on the bottom left of your screen. This shows you that it is recording to the folder we just set.

ZMD-ISV-BFS23NM

Your camera is now recording whenever you see that red dot in Internet Explorer. If you close Internet Explorer, it will stop recording and you will need to follow steps 5-7 to make it start recording again.
