## Which Zmodo DVRs are Compatible with Macintosh OS?

The following is a list of all current Zmodo DVRs as of December 2013 and whether they are compatible with Mac OS:

- ZMD-DH-SEN6 (Limited Functionality on Mac)

From a Mac, Safari lets you view all channels at once. Cannot playback or view menu functions.

From a Mac, Mozilla only plays one channel at a time. Cannot playback or view menu functions.

From a PC, the user may use either the desktop software or an Internet Explorer browser to have full video viewing functionality, playback, and full menu functionality.

**\*\*Tested on both Snow Leopard 10.6.8 and Mavericks**

- ZMD-DT-SFN6 (Full Functionality on Mac)

From a Mac, the user may use Safari to full video viewing functionality, playback, and full menu functionality.

From a Mac, user may use Mozilla to full video viewing functionality, playback, and full menu functionality.

From a PC, the user may use an Internet Explorer browser to have full video viewing functionality, playback, and full menu functionality.

**\*\*Tested on both Snow Leopard 10.6.8 and Mavericks**

- ZMD-DT-SCN4 & ZMD-DT-SCN8 (Limited Functionality on a Mac)
