DVR-H8116UV
How Do I Format The HDD On A DVR-H8114, H8118, or H8116?

You may need to format an HDD in your DVR if the recording is no longer working properly or you have installed a new HDD.

This guide was written using a DVR-H8114, but the steps will be identicle on the H8118 and the H8116.

First, right-click on the mouse and select "**Main Menu**" from the list.

After inputting your username and password, you will be shown the Main Menu. From the Main Menu, select "**Hard Drisk**" in the middle of the screen.

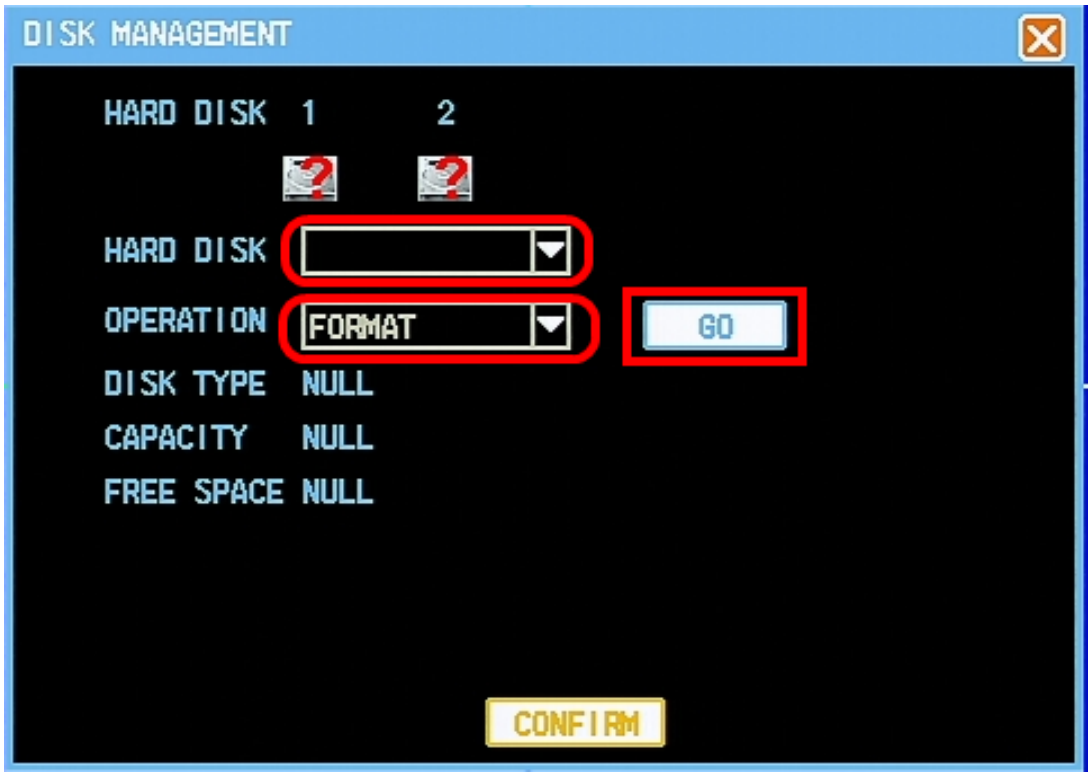
DVR-H8116UV

From the Hard Disk menu, select a Hard Disk from the dropdown. Make sure that the Operation says "**Format**" and then click "**GO**". This will ERASE ALL VIDEO FOOTAGE ONLY.



After the format is finished, back out of all the menus and the DVR should
