

Smartlink Camera

Reset Zsight Account Password

If you are unable to login to the original account because you forgot the password, you can reset that password through Zsight. On the login screen, choose the bottom option "Forgot Password?" and then input the email address for that Zsight account.

Smartlink Camera

The screenshot shows a mobile application interface for logging into a Smartlink Camera. At the top, there is a status bar with various icons and the time 3:13 PM. Below that is a dark header with a back arrow and the text 'Log In'. The main content area is light gray and contains a login form. The form has an email input field with the text 'support@zmodo.com', a password input field with the placeholder 'Password', a blue 'Log In' button, and two links: 'Sign up' and 'Forgot password?'. The 'Forgot password?' link is highlighted with a red box.

Then you should receive an automated email from meshare@meshare.com with a link to reset that password. If you don't see the email, check your spam folder. Also, if this link does not open properly in the mobile phone browser, open the link from a PC browser.
