## My cameras are in black and white all the time

If your cameras are in black and white all the time it could be because they are in a dimly lit environment, and so the night vision feature remains on all the time.

Some Zmodo cameras models will stay in color even in dimmer conditions. If you must have the cameras in the dim environment, we suggest using a camera from the list below:

|                                       |                                 |
|---------------------------------------|---------------------------------|
| Not recommended for dim environments: | Better for dim environments :   |
| <a href="#">ZMD-CBH-BUS23NM</a>       | <a href="#">ZMD-CCH-BBB23NM</a> |
| (Kit SKU: YARUZ4ZN)                   | (Kit SKU: CARQZ4ZN)             |
| <a href="#">ZMD-CBR-BCS13NM</a>       | <a href="#">ZMD-CBH-BUS23NM</a> |
| (Kit SKU: BARCZ4ZN)                   | (Kit SKU: YARUZ4ZN-N)           |
| <a href="#">ZMD-CCH-BAS16NM</a>       | ZMD-CCH-DBS23NM                 |
| (Kit SKU: CARAZ4ZN)                   | (Kit SKU: CARZBZ4ZN)            |
| <a href="#">ZMD-CCH-BCS13NM</a>       |                                 |
