

# ActiveX Settings for Internet Explorer

The first time you access any DVR system online (including the LiveDemo on Zmodo.com), you will need to change three [ActiveX](#) controls to "Prompt".

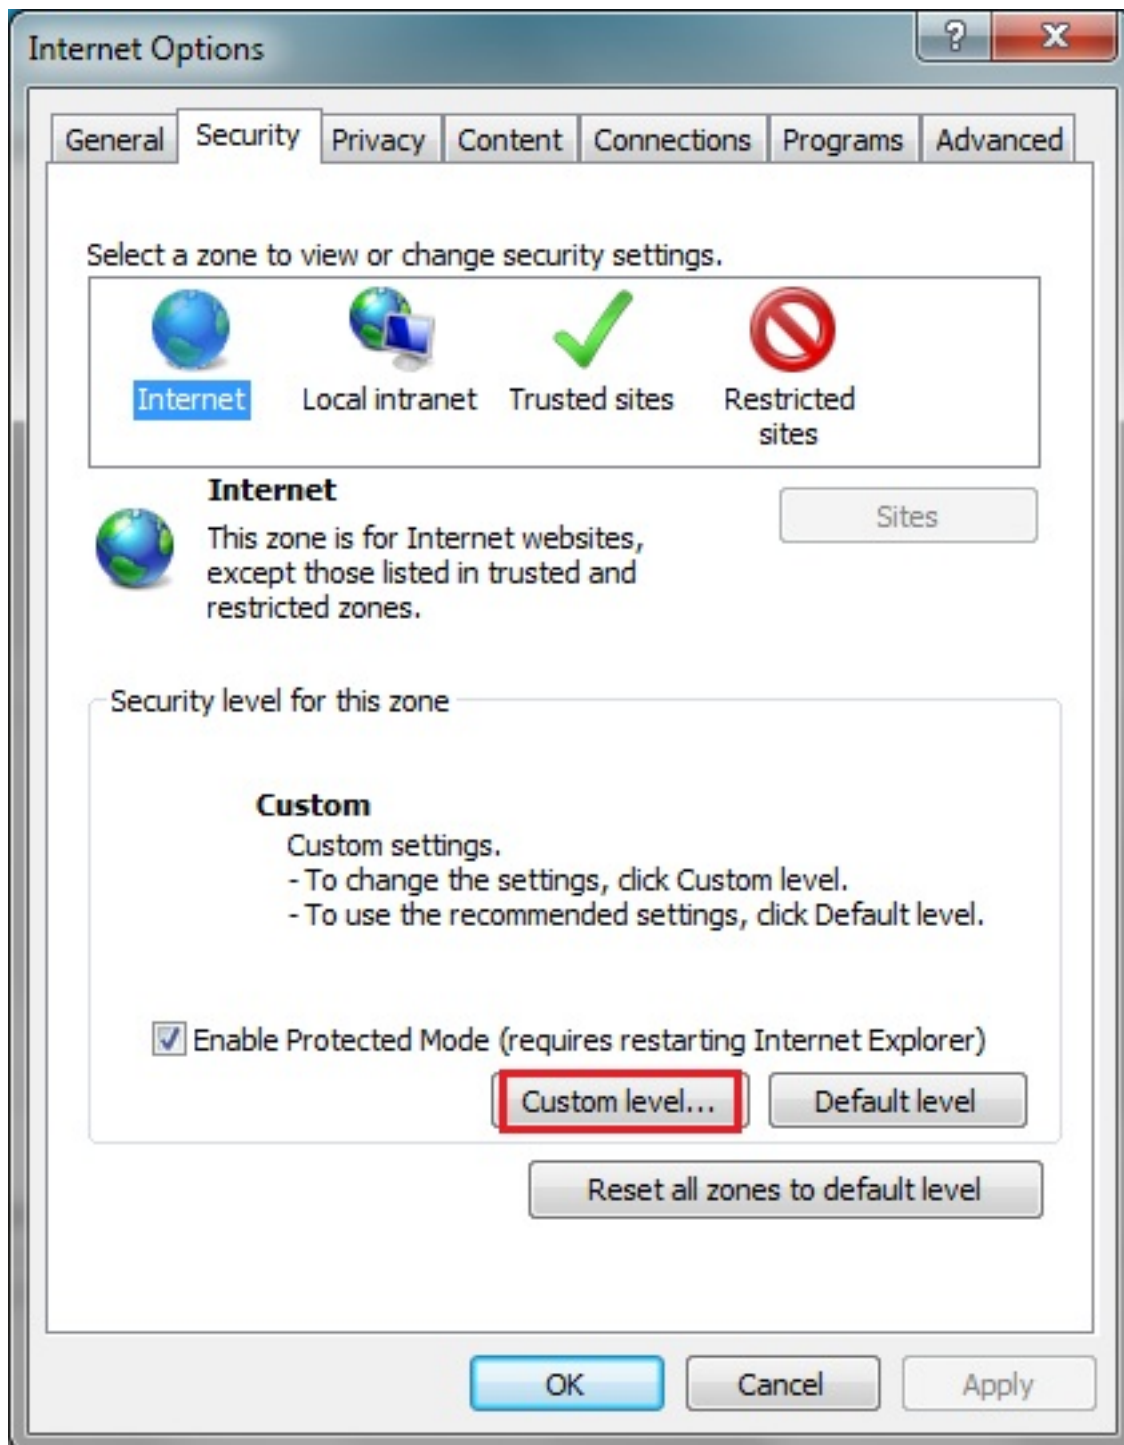

To change your ActiveX Controls, click on **Tools**, then select **Internet Options**.

Once in the **Internet Options** menu, click on the **Security** tab.

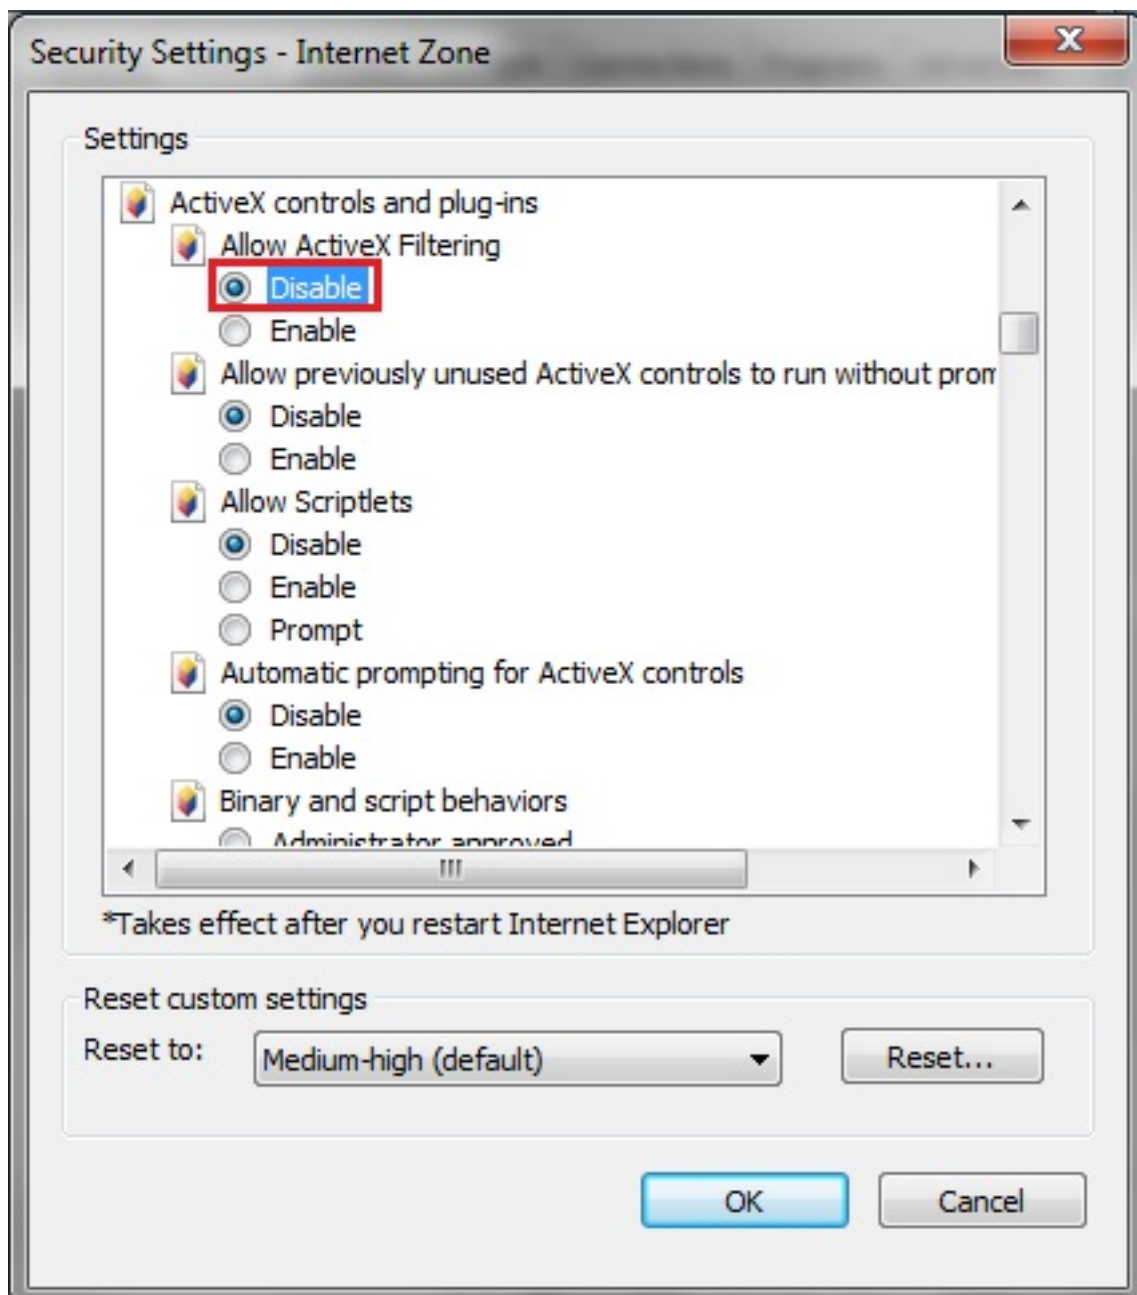

From the **Security** tab, click on **Custom level...**

Scroll down until you see **ActiveX controls and plug-ins**.

\*\*For IE 9 users only: For the first option, **Allow ActiveX filtering**, select **Disable**.

\*\*For all users: Scroll down farther through **ActiveX controls and plug-ins**, and change the following 3 values to 'Prompt':

- Download signed ActiveX controls
- Download unsigned ActiveX controls
- Initialize and script ActiveX controls not marked as safe for scripting

When done, click **OK** and exit the Security Settings menu.
