Zviewer
ZMODO Zviewer iOS Mobile Application Instructions
ZMODO Zviewer for iOS

1. Software Installation

1.1 Introduction

Zviewer for iOS is the mobile app used to stream live video from your ZMODO H.264 DVR or IP Network camera, and supports a four channel simultaneous view. This guide focuses on the installation and use of the application.

1.2 Requirements

Hardware: iPhone mobile phone or iPod touch
System: iOS 4.3 or higher
Network: WiFi or GPRS

1.3 Installation Steps

Enter the iTunes App Store and download the Zviewer application.

2. Operation Instructions

2.1 Opening Program

Locate the Zviewer application and tap to launch. Once the application loads, you will see the main interface.
